Adam Kanaan

Batroun, LB | Lebanese | +96181851620 | LinkedIn | ajkanaan004@gmail.com | GitHub | Portfolio

Motivated Computer Engineering graduate with hands-on experience in **full-stack development** using **React**, **TypeScript**, **Node.js**, and **PostgreSQL**. Skilled in building scalable applications, **REST APIs**, and modern user interfaces. Strong foundation in **software architecture**, **debugging**, and **agile development**. Passionate about **mobile** and **desktop application** development and eager to contribute to high-quality software solutions in an international environment.

Technical Projects

Flex Fits Chatbot — *AI-Powered Conversational Shopping Assistant | Python, NLP, Telegram API* February 2026-March 2026

- Engineered a production-ready **AI chatbot** for product discovery, cart management, and checkout via **Telegram** and **CLI**.
- Implemented retrieval-augmented generation (**RAG**), robust intent handling, and **Supabase REST API** integration.
- Applied best practices in clean code, automated testing (**Pytest**), and professional GitHub repository management.

Flex Fits Online — *Full-Stack E-Commerce Platform | React, TypeScript, Supabase, Vite, Node.js* November 2025-February 2026

- Developed a modern e-commerce **SPA** with **secure** stock reservation, admin dashboard, and **automated email** workflows.
- Built with **React 19**, **TypeScript**, **Supabase** (**PostgreSQL**), and **Vite**; deployed on **Vercel** with **CI/CD**.
- Gained expertise in cloud database design, serverless automation, and **professional repo management**.

IntelliBudget — *Personal Finance Management Dashboard | React, TypeScript, Supabase, Node.js* October 2025 – November 2025

- Built a secure **multi-user** finance app for expense tracking, budgeting, and **analytics**.
- Developed a responsive **PWA** frontend (**React** + **TypeScript**, **Tailwind CSS**) and **RESTful Node.js API** with **JWT authentication** and **PostgreSQL**.
- Implemented interactive dashboards (**Recharts**) and optimized **CI/CD** deployment on **Vercel**.

Smart Farm System — *Full-Stack Agricultural E-Commerce Platform* August 2025 – September 2025

- Developed a comprehensive platform connecting farmers, customers, delivery, and admins with **multi-role** dashboards and real-time **notifications**.
- Integrated secure **JWT authentication**, **automated email** communication, and responsive design (**Tailwind CSS**).
- Achieved sub-2s response times, 95% user satisfaction, and projected 89.7% **ROI**.

Radio transmitter & Receiver — *Analog Communication* May 2025 – May 2025

- Designed and implemented an **analog radio system** with **transmitter** and **receiver** modules.
- Achieved **stable signal** transmission up to **50 meters** with enhanced signal clarity (+20%)

Work Experience

Arnaoun Village, Batroun — *Team Leader Cashier (Seasonal)* September 2022 - Present

- Handled over $30,000 daily during peak season with zero errors. And ensured smooth transactions.

Stories Coffee Shop, Batroun — *Supervisor* November 2024 – January 2026

- Served 100+ beverages/day while managing POS and cash operations. Trained 4 new joiners

World Food Program WFP, Koura — *Logistics and Food Inspection Support* December 2024 – January 2025

- Identified and reported damage cans, expiry dates, damage, contamination, and packaging integrity.
- Collaborated with logistics staff to ensure compliance with WFP food handling and storage standards.

Fallout Gaming Lounge, RasNhash – *Technical Support Specialist* May 2023-December 2024

- Maintained a setup of 20 computers and 2 PlayStations with over 300 visitors weekly, resolving all technical issues.

Florida Beach, El Hery Chekka — *Store Supervisor (Seasonal)* May 2023-September 2024

- Led 12+ staff, managed 50K$ inventory with zero shortages. Promoted within a year for leadership and operational excellence

Education

Lebanese International University, Dahr El Ein – *BS in Computer Engineering* September 2022 – September 2025

- Recognized for academic excellence with **Honors** List distinction
- Applied engineering principles through coursework in **software**, **systems**, and **electronics**

Entrepreneurship

Flex Fits, Online Shop – *Founder* December 2024 – Present

- Built a brand focused on authentic shoes. Managed sourcing, digital marketing, and customer service. Handled order fulfillment and product photography

Skills

JavaScript, TypeScript, SQL, Python, C++| React.js, HTML5, CSS3, Tailwind CSS, Responsive Design | Node.js, Express.js, RESTful API Design, JWT Authentication | PostgreSQL, MySQL, Supabase, Sequelize ORM, Relational Database Design| Object-Oriented Programming (OOP), Debugging, MVC Architecture, API Integration, State Management | Git, GitHub, Visual Studio Code, Vite, Vercel, Environment Configuration | API-based AI Integration, Chatbot Logic Design, Backend Automation Concepts | Problem Solving, Analytical Thinking, Team Collaboration, Technical Communication, Leadership

Volunteering

SWIM NGO: Participated in environmental cleaning campaigns, promoting community responsibility and sustainability.
